Counties Appropriating \$5,000 to \$10,000 Each for Exposition-Other State Indications.

Indications received from California by the Exposition joint Committee on States and Territories and Legislation point to the appropriation of \$1,000,000 from that State. Under the California law, the counties are permitted to appropriate \$10,000 each toward exposition purposes. The Exposition joint ommittee has recommended that accredsted representatives of the World's Fair be sent into the various counties at once.

Los Angeles County has already ap-propriated \$10,000; San Joaquin County, \$6,400 and the Commissioners of several other countles are considering the appropriation of sums varying from \$2.500 to \$10,000. After the counties have all acted the Exposi-tion management relies on sufficient inter-est having been aroused to secure an ap-propriation of \$500,000 from the Legislature. Indications are that in spite of the com-plicated conditions in New York, an ap-propriation of \$200,000 will be secured from propriation of \$300,000 will be secured from this Legislature. The Kentucky bill for \$100,000 has passed the Senate and reached the third reading in the House yesterday. In Indiana Governor Durbin hopes to be able to commit a majority of the Legislature to liberal appropriations some time this summer. Governor Benton McMillan of Tennessee has written the Exposition management that he will create at an early date an honorary commission, which will proceed to work, feeling confident that the Legislature will make an appropriation next winter. propriation of \$300,000 will be secured from

Berry's Demand for Report on Resolution to Change Method of Election Provokes Debate.

HOAR OPPOSED TO THE PLAN.

Took the Ground That It Would Subvert the Fundamental Principles Upon Which the Senate Was Founded.

Washington, March II .- In the Senate today in a privileged statement Mr. Berry of Arkansas said he had introduced early in the present session a resolution providing for the election of Senators by direct vote of the people. This, together with similar resolution adopted by the House of Representatives, had been referred to the Committee on Privileges and Elections The House had passed such a resolution four times, but the question never had been considered by the Senate. He was being pressed constantly, he said, by correspond ents to know when a vote would be taken upon the question by the Senate, and he desired to inquire of the chairman of the committee whether the Senate could not have a vote upon the resolution during the

Mr. Burrows of Michigan, chairman of the Committe on Privileges and Elections. after saying that what Mr. Berry had said was true, said: "I will say to the Senator that there is no disposition on the part of the committee to shirk responsibility in connection with the resolution. Indeed, it is the first serious effort made to change the mechanism involved in the principles of the Constitution. This is a proposition to change the principle upon which the Con-stitution is founded, and it is a matter of historical fact that without the incorpora-tion of this principle the Constitution never would have been agreed to. Mr. Dubois of Idaho maintained that the only point of the Constitution bearing on the question was that each State should have two Senators. The manner of their election was not a vital principle.
